“A 2023 graduate and a seasoned developer. I've mastered React Native and React JS and other technologies. I am quick learner and committed to excellence in every endeavor and always ready to take on a challenge.”

SKILLS

React Native, React.js, Redux, JavaScript, Python, Java, HTML5/CSS3, Flutter, Express JS/ Node JS, Testing, MongoDB, MySQL, Debugging, Firebase, Tailwind, RESTful APIs, Data Structures and Algorithms

EXPERIENCE

SDE

Dec 2023 - Current

Jio, Mumbai

- Collaborated with Hyperautomation team to automate manual processes, reducing workload.
- Developed a React.js dashboard to display data processed by the database team.
- Assisted PIM team in creating a portal, slashing weekly manual tasks by 30 hours.
- Designed a responsive website for telco users, enabling self-resolution of issues, saving 2 days of manual work previously requiring cross-team involvement.
- Eliminated team dependency by developing user applications and integrating bash scripts for quicker issue resolution.
- Used Azure DevOps for managing repo's and deploying the application.

Frontend Developer

Sep 2023 - Nov 2023

Babycloud, Aurangabad

- Implemented pagination using React Query for Moments and Giggle screens which covers 20% of the app.
- Enhanced user experience with pagination and scrolling akin to Instagram reels on giggle screen.
- Updated app sections, including 40% API calls, bug fixes 50+, and UI enhancements 10+ screens.
- Replaced heart feature with clap, involving all firebase dependency changes in 10+ files, API updates, and UI modifications.
- Resolved 15+ Firebase Crash Analytics issues; conducted extensive testing on Lambda Test involving 12+ devices.
- Developed webinar feature for admin website; synchronized with Android app.
- Introduced paid webinar functionality with Razorpay integration on Babycloud.
- Designed and integrated UI for webinar feature in mobile app.
- Implemented Pubnub for real-time chat; created WhatsApp-like user chat list.
- Designed UI for Add Child Profile screen and fixed 20+ bugs..
- Utilized Formik and Yup for form validation in entire app and data handling.
- Improved Sleep Timer and Lullaby features for music player functionality.
- Upgraded react-native-track player libraries from version 3 to 4 for enhanced performance.

React Native Developer

May 2023 - Aug 2023

NFT Verse, Bangalore

- Working on a blockchain wallet app called Tale Wallet. Managed 100% of application.
- Developed multiple 15+ features including Crypto Lens, Wallet Section, and Crypto Basket.
- Debugging the code and optimizing the UI.
- Responsible for front-end development and creating responsive UI.
- Integrating 20+ APIs into the application.
- Utilizing technologies such as React Native framework, Tailwind CSS, TypeScript, and Node.js.
- Utilizing tools like Bitbucket, Postman, Slack, Android Studio, etc.

React Native Developer

Aug 2021 - Nov 2021

Apartment Solutions, Mumbai

- Created responsive app UI and Implemented the backend and worked with different APIs to fetch the data and services from the cloud.
- Used google API for implementing google Maps.
- Refactored the code according to the coding standard

App Developer

Jan 2021 - Jul 2021

Simba Developers, Pune

- Core member of development team for Yibe. Developed app using flutter.
- Created pixel perfect and managed more than 8 screens in the app.

EDUCATION

Bachelor of Engineering (B.E.) - Information Technology

Aug 2019 - Jun 2023

Marathwada Mitra Mandal College Of Engineering, Pune

CGPA: 8.45

HSC - 12th

Apr 2017 - Apr 2018

Jyoti Janolkar Junior College, Akola

Percentage: 62.9%

SSC - 10th

Apr 2015 - Feb 2016

School Of Scholars, Akola

CGPA: 8.5

LICENSES & CERTIFICATIONS

Python Data Structures

2020

Coursera - R2YZAS4Z4QU3

Internet of things and AI/ML

2020

Bolt IoT - CC3474395AB86F9840476DE407BF3B

PROJECTS

1] **Pocket Notes:** React.js, HTML5/CSS3, Javascript, Git. [Link](#)

2] **Quiz Creation and Sharing:** React.Js, HTML5, CSS, Javascript, Git, Nodejs, ExpressJs, MongoDB, [Link](#)

3] **Super App:** React.js, HTML5/CSS3, Javascript, Git, RESTfull Api's. [Link](#)

- React.js project showcasing skills through UI screens and components.

4] **Book and Topic Search website:** React.js, HTML5/CSS3, Javascript, Git. [Link](#)

5] **Expense Tracker App:** React Native, Redux,, Javascript, Git. [Link](#)

6] **Currency Exchanger App:** React Native, Redux, Javascript, Git, RESTfull Api's. [Link](#)

HONORS & AWARDS

Winner of Internal College Hackathon Conducted for SIH

2023

MMCOE College, Pune

ET Campus Star Season 6.0 Winner

2023

The Economic Times

National competition by Economic Times. 35,000+ students, 2000+ colleges, 4 rounds, 35 parameters. Judged by 15 Jury Members, India's largest quest for engineering talent.

[ET Campus Star 6.0: ET Campus Stars 2022 Latest News & Updates \(indiatimes.com\)](https://www.indiatimes.com/ET-Campus-Star-6.0-ET-Campus-Stars-2022-Latest-News-&-Updates)

Solved 300+ DSA Questions

2023

Geeks for Geeks, Hacker Rank, Leetcode, CodeChef

Solved more than 300+ coding questions and still going. On GeeksforGeeks, Hackerrank, Leetcode, CodeChef.
